

**2018**  
YEAR OF THE  
**CALIBRACHOA**  
[ngb.org](http://ngb.org)

**2018 is the  
Year of the Calibrachoa**

Few plants have seen the rise to stardom that Calibrachoa has. Over the last 20-30 years, Calibrachoa came from Brazil to America, then into your garden. When you consider that most of our other garden flowers have been around hundreds of years, Calibrachoa is the “new kid”.
